MISS BULLARD HOSTESS AT LOVELY TEA—

Miss Annie Laurie Bullard was hostess at her home Thursday afternoon at a tea complimenting her guests, Misses Mary and Adelaide Dean of Montgomery.

Miss Mary Olive Carney greeted the guests and presented them to the receiving line composed of Miss Bullard and the honorees. Miss Mary Dean wore a charming frock of imported yellow silk lace. Miss Adelaide Dean was lovely in yellow flat crepe. Little Jean Brock received the cards in a silver tray.

Miss Mildred Lee invited the guests into the dining room where they were served delicious punch, sandwiches, minis, and salted nuts by Misses Hazel Bonneau and Gedie Rowe.

Baskets of vari-colored summer flowers were used in the living room while a color scheme of pink and white was used in the decorations in the dining room. About thirty-five guests called between the hours of four and six.

Unfurnished Rooms for rent. Apply to Jas. C. Dixon.

PATRONS ARE URGED TO ATTEND SCHOOL OP- ENING MONDAY.

Do not forget that school opens Monday. Show your interest in your child and his interests by being present at nine o'clock. School will open each morning thereafter at eight. We do not need your child here an hour before time for school to open, but have him on time. Those who wish to talk with me on any school problem can do so any time Friday or Saturday. I will be in and around the building all day. Monday will be a busy day for the teachers. All new students report Friday A. M. for classification if they are in the Junior High or Senior High. Those who were deficient last year in studies and have been working during the summer will also report Saturday. If you are expecting to be a Senior this year be sure and get your credits straight at an early date.

GOING-AWAY PARTY

On last Friday afternoon from 3 to 5 o'clock Mesdames Geo. Collier, Fred Folsom and Dan Parker entertained at a Going-Away party in honor of Mesdames W. A. Kelley, Robt. Beasley, Jno. Grant and Ross Clark, who soon will leave Elba to make their homes elsewhere.

Mrs. Fred Folsom met the guests at the door, carried them to the receiving line composed of Mesdames Collier, Beasley, Clark, Grant Kelly Stanley, Terry and James. From receiving were ushered by Miss Sallie Collier to the dining room where Miss Mary Ella Boazman served delicious punch from a beautifully appointed table. During the afternoon Miss Mattie Kate Boazman gave a number of selections on Victrola. Mrs. Dana Perdue gave a splendid reading and Mrs. W. F. Cooper in a few well chosen words expressed regrets that these ladies were leaving Elba, and in behalf of the hostess presented the honorees with a lovely handkerchief as a remembrance, each recipient graciously responding.

Yellow and green decorations were carried out throughout the home. Delicious refreshments consisting of pound cake and Pineapple cream were served.

About 45 ladies enjoyed the hospitality of these popular hostesses.

A CORRECTION

We wish to call our readers attention to an error which appeared in the large Goodrich Tire adv last week. 30x3 Radio Cord Tires were quoted at \$9.00, when the type should have read "30x3 1/2." The smaller size tire sells for \$7.00. This error was made in our composing room and we gladly make the correction.

Mr. and Mrs. O. D. Rowe left the first of the week for Union Springs to make their home. Mr. Rowe has accepted a position in a bank there as Cashier.

FARMERS URGED TO OR- DER VETCH NOW; FINE WINTER CROP.

Send your order for vetch seed today to the Coffee County Farm Bureau, Enterprise, Ala. 100 lbs will plant 5 acres and will cost \$18.00. This \$18.00 investment will by proper handling give in return \$60.00 worth of nitrates to the 5 acres, and will keep the land from washing and also furnish a good winter pasture. Vetch means better and richer soils that produce 25 to 40 bushels corn per acre without fertilizer. Let's cut down the fertilizer bill, especially high priced nitrates by planting more vetch. Send us your order today.

Terracing

One of the greatest needs of the average Coffee County farm is the broad terrace. The time to do this work is in the fall. We are ready any day to begin this work if you will let us know a few days in advance, so we can arrange for the work. All terraces should be broad enough to cultivate from 3 to 5 rows on top of the terrace. Remember that the broad terrace does not break like the razor back type.

Build Your Storage House For Sweet Potatoes Now

Those who have grown a good sweet potato crop this year should erect a small curing house at once and save the crop for a good market price later on in the year. A small house that will house 500 bushels can be easily and cheaply constructed and will pay a handsome dividend on the investment this year. Let us show you more about this paying proposition.

Government Explosive For Stumping Now Available

We are taking orders for Pyrol to be used in blowing stumps, ditching etc. This figures about half the price of dynamite and is just as effective. Make all checks payable to L. C. LeBron, Auburn Ala. and the price is \$10.00 per 100 lbs.

SHOCK ABSORBER

If you have ever ridden over a rough road in a spring less vehicle you will appreciate the usefulness of springs which absorb the shock.

Life is generally conceded to be a pretty rough road, and there is many a shock coming to the man who is trying to get along without shock absorbers.

There are numerous shock absorbers on the market for such an individual, but the best is a bank account. Ask any man who has one and he'll tell you.

KINDNESS, REVERENCE AND TRUTH

Remember there are two sides to every question. Get both. Be truthful. Get the facts. Some mistakes are unavoidable, but strive for accuracy. "I would rather have one story exactly right than a hundred half wrong." Be decent. Be fair. Be generous. Boost, don't knock. There's good in every body. Treat all parties courteous. The "Penny Wise" individual always runs purchasing cheap, inferior glasses. He is in reality "Pound Foolish." Nervous hot flashes

"SOME time ago when in a very nervous, run-down condition," says Mrs. Martha E. Marlow, of Broken Bow, Okla., "I tried numerous remedies to try at least to keep going, but I could not. I was weak and tired—just no good at all. My back ached and I had hot flashes until I was so very nervous I smothered. I couldn't sleep and I was never hungry, and I kept getting weaker. I couldn't stand on my feet. This was an unusual condition for me as I had been pretty strong all along. I knew that I would have to do something, and that pretty soon."

"Some friend suggested that I take Cardui, and it certainly was a good suggestion, for after taking one bottle I could tell I was stronger and better. I didn't quit. I kept it up all through the change and did fine. I felt like a different person after I began taking Cardui."

Cardui has helped thousands of suffering women. Sold by all druggists.

NEWS IN BRIEF

An associate press dispatch says that "the apple crop larger than ever before known is confronting the United States. Early apples are so abundant that wholesale prices have gone as low as 50 cents a bushel."

Based on "intentions to plant," America should produce a bumper wheat crop next year. A long distance forecast is that the export surplus will be around 168,000,000 bushels as compared with 64,000,000 last year. Only in one year (1924) was the export above 168,000,000 bushels.

Pannonia of Friendship, a mature Jersey cow owned by King Pharr, Catherine, Ala., has completed her third official record and won her second gold medal. The test started when she was nine years and five months of age. Her record was 15,613 pounds of milk, and 725.10 pounds of butterfat. The Pharr herd of Jerseys ranks among the best in any state, it is said.

Coffee County Poor Houses
"The Poor You Have With You Always."
(By J. A. Carnley)

In former articles feeble effort has been made to give some history of Coffee County Poor Houses. This article will deal with the question more in the light of present history and progress, reviewing some difficulties in County management of the "worst" governmental agency in our system of organized, but inefficient, provision for the poor.

The Present Administration

Prior to January 15, 1923, when the present administration began the Coffee County Poor House and Poor Farm had been for years located three miles west of Elba on the road leading from Elba to Dannelley's Cross Roads. The buildings consisted of two frame structures, the one occupied by the inmates of the almshouse being a mere "barn shack" and being poorly equipped and with no accommodations for proper care of the inmates of the home, and the other being occupied by the keeper or manager of the farm and inmates. The old building used for the inmates had five rooms and three fire places. It was located between two hills and gave a dilapidated appearance to the eye. It was a miserable make-shift.

With some small repairs this building was continued to be used for a little over a year when a new home was purchased and the inmates removed to the new home on May 7, 1924. During this time three inmates were transferred to Tuscaloosa, namely, Agnes Stewart, Missouri Ward and Bob Fuquay. Agnes Stewart was a feeble minded girl of thirteen years old, and she was placed in the Home for feeble-minded children at Tuscaloosa. Missouri Ward was insane and had been in the Coffee County Poor House for fifteen years, sitting alone in her room where her food was carried to her, many times having to be fed by the keeper of the house. She had since died at Bryce Hospital.

Bob Fuquay went to the poor house in 1923 and was soon transferred to the Bryce Insane Hospital where he has since died. During the first year of this administration two died at the poor house, namely: Mr. Warren Nolin and Mr. Henry Mallory, and the keeper Mr. J. A. Boutwell and his wife both died, their son, J. G. Boutwell succeeding them for a few months.

The New Home—"A Mansion for the Poor"

We usually associate the idea of a mansion with the home or dwelling of the rich, and not with the habitation of the poor. A new appellation is given to the Coffee County new home for the poor, namely: "Mansion for the Poor." This new home was purchased from Mrs. I. T. Law on "Law Heights" a mile from the Court House in the edge of the incorporation, high above the dampness of the little valley where in is located the Town of Elba and its beautiful Court Square. The "Mansion for the Poor" is situated on one hundred and fifty feet above Court Square. It consists of ten acres square, with pasture and truck farm. When purchased there were: one nine room frame dwelling, one large barn, a garage a light plant, deep well and wind mill, having had installed the Deico Lighting system and sanitary sewerage. To this was built during the year of 1925 a new six room building for the housing of inmates, with porch connections, making accommodation for care of the inmates and a hospital room for the sick. An electric line was constructed by the County to this home and electric lights put in the entire building. A

new wind mill was erected, but the supply of water from the old well, being inadequate, connection was made by water pipes with the Town reservoir and an electric motor installed a septic tank placed, and a complete sanitary system installed with bath tubs, laboratories etc., and now an adequate supply of water is had by touch a button. The home is clean and sanitary, convenient and comfortable. The inmates are well cared for and are happy.

There were carried from the old "Shack Home" to this new "Mansion for the Poor": Miss Eva Odum, Mrs. Jane Modlin, Miss Martha Mallory, Mrs. Mollie Morris, Mrs. Polly Stricklin, Mrs. Willie Rabon and little son, James Thomas McCoy and Mrs. Elia Brundick, a feeble minded person, who was later taken to Tuscaloosa and entered the Bryce Hospital for Insane. She is still there. Uncle Bob Floyd, of true and characteristic southern chivalry, was the first to be admitted to the "Mansion for the Poor" he having desired to go to the Soldiers' Home at Mountain Creek until he saw our new home, when he declared with emphasis: "I want to come here, Judge." He is there at this writing. Though afflicted he is happy.

Some Who Have Entered And Passed On

There were entered at the new home Mr. and Mrs. H. Hickman, Mr. Hickman being afflicted at the time of their entry there and later dying at the home. His widow left the home to live with her children after her husband's death. This was in 1925.

Mrs. Rosa Lee Dennis, whose husband had deserted her and two small children, stayed with her children in the Almshouse until they could get a home elsewhere.

Mr. William Johnson stayed in the home for awhile and left to the home for a few weeks until he could be transferred to the Bryce Hospital at Tuscaloosa, later dying Dec. 21, 1925.

Mrs. Lizzie Ballard, an old lady years of age, was carried in the home until her death in February 1926. Mrs. Sarah Jane Timmons was brought to the home very ill and died at the home four days there. This was the case with Miss Eliza Powell who lived two days after being brought from Enterprise to the home and also Mrs. Sarah Lolly who was brought to the home in precarious condition and soon afterwards died; also Mr. Gid Jones who lingered for six weeks, being given to each the best medical attention.

Mrs. Tom McCoy also died in June this year he being the only one moved from the old home to the new who has died. Miss Martha Mallory left to live with her brother.

In addition Messrs. John Ward John Pettus Jim Johnson Tom Williams Joe Mills and Mesdames Mollie Mills Nancy Catrett and Nancy Gray are now in the home, making a number now 14 enjoying the support and maintenance at the Almshouse. Several others have been cared for from time to time for periods of short duration including some children, until homes could be secured for them.

How Maintained

The Superintendent or keeper of the Home is Mr. Dock Prescott and his wife, and they are paid monthly \$15 per each inmate in the home. The county furnishes all the clothes, beds and bed clothing and furniture for the inmates, and the

county agents of Alabama will spare much time advising farmers about planting vetch seed.

Another point emphasized by Prof. Funchess this year is that of deep planting. He recommends planting the seed at least two inches deep on one or two inches deep on sandy soil. This recommendation for deeper planting comes from more information about vetch, which is as yet a new crop in Alabama.

Inoculation is another important factor. It is absolutely necessary when planting vetch seed on land for the first time. Without inoculation vetch will not succeed. In the past, most failures have been due to a lack of inoculation.

Phosphoric fertilizers are also very beneficial to vetch. Experiments at Auburn and in cooperation with farmers through out the State have shown that vetch makes a best response to phosphoric fertilizers where needed. Either acid phosphate or basic slag may be used.

Prof. Funchess says that in all the experiments with hairy vetch basic slag has been as good as acid phosphate, and where a difference has been found it has been in favor of basic slag.

During the next six weeks the county agents of Alabama will spare much time advising farmers about planting vetch seed.

Notice to all farm bureau members who desire to pool their cotton and want to have it ginned at New Brockton I will assist you in getting your cotton off. Now gentlemen the reason I am not handling the farm bureau cotton through my warehouse is that Mr. Northington the manager of your association wanted me to do it practically for nothing and I cannot afford to work for nothing, and if I do it will be for your direct and not for the association. I want to gin your cotton, but I will assist you in any way I can.

FARMERS BEGIN PLANTING VETCH

Auburn, Ala. Sept. 6 1926.

With the first of September another vetch seed planting season is on. Prof. M. J. Funchess director of the Agricultural Experiment Station at Auburn, says that a good rule is to plant vetch seed immediately following the first good rain after the first of September. This means that the planting should not be done until early October if no good rain falls until the time. However, earlier planting is better and is urged if seasons are right.

Another point emphasized by Prof. Funchess this year is that of deep planting. He recommends planting the seed at least two inches deep on one or two inches deep on sandy soil. This recommendation for deeper planting comes from more information about vetch, which is as yet a new crop in Alabama.
